

OXI-KLEEN

<h1>Technical Data</h1>	Metal Polish & Tarnish Remover
	DESCRIPTION: Aerosol, light foaming, white colour, lemon fragranced.
	USED FOR: OXI-KLEEN is a powerful metal polish and tarnish removal compound, in an aerosol format. With a light foaming action, it quickly penetrates tarnishes and oxides commonly found on chrome bumpers & mirrors; aluminum and alloy wheels and hubs, brass and copper etc.
	ADVANTAGES: OXI-KLEEN is formulated from a silicate modified lemon peel oil extract, combined with a protective polish and coating agent. Applied to tarnished and oxidized metal surfaces, it quickly penetrates with a light foam action. Gentle agitation with a soft cloth or sponge removes most tarnish and oxide deposits. A clean cloth quick wipe and produces an enhanced lustre finish from the protective polish deposited by OXI KLEEN. Cleans, polishes and protects Easy to apply. Provides a gentle foam for creepage across surfaces. Contains penetrants, oxide removers and protectants.
	Package Size: (code) 12x1 L 248159
